WINTERBERRY

Sample knit in Madelinetosh Tosh Merino Light

Winterberry is a simple, triangular shawl knit from the top down. The shawl begins at the center and grows outward adding stitches every right-side row.

A mix of soothing garter and lace stitches create a beautiful, lightweight shawl. The shawl is finished with a lace border and a picot chain bind-off for a decorative yet simple stretchy bind-off.

The shawl is designed for fingering weight yarn. Pattern includes both written and charted lace sections.

notes

• Using a locking stitch marker or progress keeper on the right side of your work can help you remember which side is the RS vs WS.

• If you prefer to work from a chart, these are found on pages 7-8.

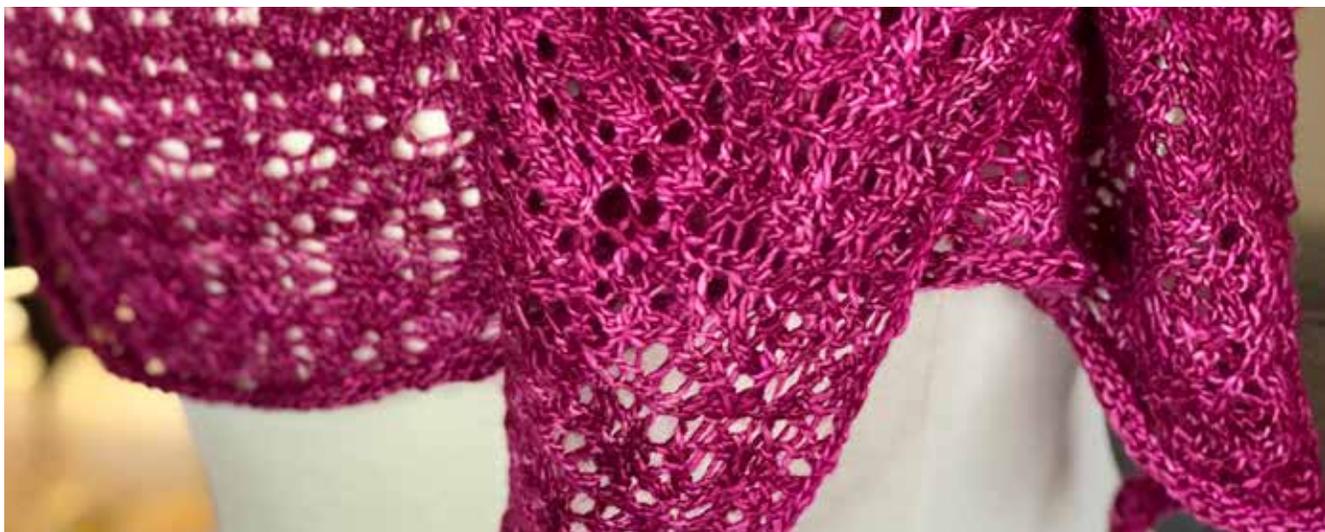

Tips for Picot Chain Bind-off:

- If you forget where you are at while working the bind-off, look at the last st on your right hand needle.
 - If you just did a (yo, bind-off 1) the stitch will be further away from the work.
 - If you just did a (k1, bind-off 1), the stitch on your needle will look closely connected to your work.
- If you would prefer a wider and stretchier edge, you may add additional yarnovers into your bind-off.
 - For example, you can add a (yo, bind-off 1) every 8 sts or every 10 sts if you desire.

Continue to finishing.

finishing

Bind-off using the Picot Chain Bind-off. You can adjust this any way you wish.

When I bound off I used the following pattern:

[(k1, bind-off 1) 3 times, (k1, yo, bind-off 1, k1, bind-off 1) 5 times] to end.

Picot Bind-off

Step 1: K1.

Step 2: YO.

Step 3: Bind-off 1.

Step 4: K1.

Step 5: Bind-off 1.

Repeat steps 2-5 across to the last st or break up the picot chain with regular passover bind off.

At the end, cut your yarn leaving a tail and pull through last st. Weave in all your ends.

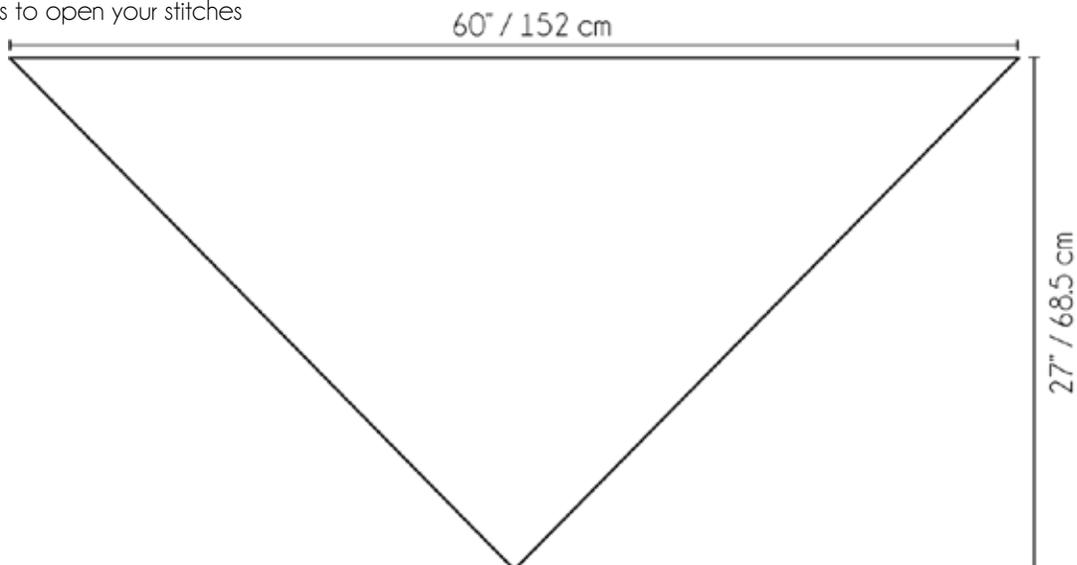

Continue to blocking.

blocking

Soak your shawl in lukewarm water with your favorite wool wash or essential oil for 10-15 minutes. Gently squeeze out the excess water with a towel. Lay flat to dry and wet block to schematic dimensions below. If you have them available, I recommend using blocking wires to help block to the shape and give your edges a nice clean finish.

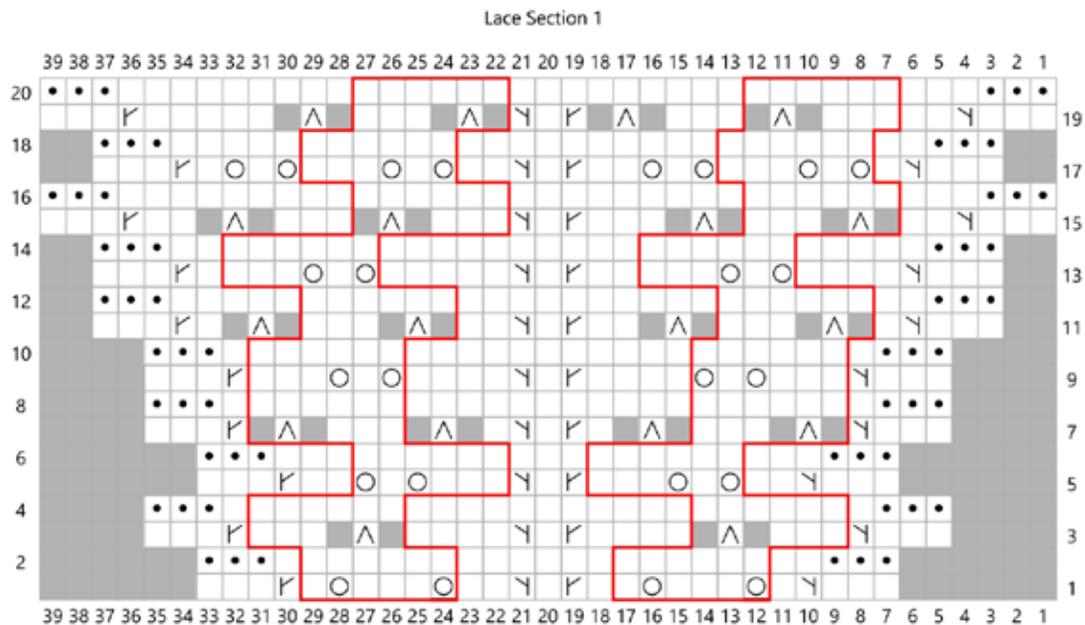

Small accessories typically take a good 24 hours to dry completely. Blocking helps to open your stitches and allows them to relax.
